PEER SUPPORTER AND FORMER PATIENT
Our programmes

We provide private mental health and addiction programmes for adults. Our treatment programmes are tailored to the specific needs of the individual, ensuring the best possible outcomes are achieved. We ensure our outpatient, inpatient and day care patients are provided with every resource they need to make a strong recovery and return to a positive way of life.

To help achieve this, we thoroughly assess and investigate the range of issues that each person may be experiencing.

“...I didn’t think it was possible to stop drinking, never mind being introduced to a way of living which is far preferable in every respect... My stay at Priory was the catalyst for a major life change for me...”

Fees and funding

We are an approved provider for all the UK’s leading private medical insurers, meaning patients may be able to access treatment through their policy. We also provide self-pay options for individuals and families, and corporate arrangements for businesses.

While we would prefer to receive a GP referral when a patient enters our services, this isn’t always essential. For those using private medical insurance, your provider may require you to have one.
