Welcome to the Spring edition of Highbank Highlights, giving you an insight into the work we do at The Priory Highbank Centre.

In this edition we focus on Postural Management and Positioning at The Priory Highbank Centre. You can also find out more about the latest 'Education at Highbank' event and hear from Jane Marsden, a member of our Physiotherapy team.

Visit Highbank
Please contact us to arrange a tour where you can see first-hand the excellent facilities and care delivered here every day.

Postural Management and Positioning at The Priory Highbank Centre

Postural Management assists individuals in improving and enhancing their postural difficulties and everyday functionality.

The Priory Highbank Centre offers a Postural Management programme that ensures all our service users receive the best possible care, to optimise their chances of returning to a more positive way of life.

Harry’s story

Our case study tells the story of Harry*, a service user who has benefitted greatly from the Postural Management programme at The Priory Highbank Centre. Harry is a 24 year old man who sustained a severe traumatic brain injury when he was hit by a car, causing him to require enhanced and continual care. Thanks to the expert treatment at The Priory Highbank Centre, Harry has made significant positive improvements in his life.

Education at Highbank

Our last education event took place on Tuesday 5th April 2016, on the subject of holistic interventions within the management of the complex child and how this can improve service user outcomes.

We received extremely positive feedback, with all attendees rating the relevance of it to their organisation as Good or Excellent:

"Presentations and content were great - interesting and educational. Made to feel very welcome with useful insight in the children's unit. Excellent thanks!" Attendee

Please contact katehall@priorygroup.com for details of up and coming educational events.

Meet the team - Jane Marsden

Jane became a Physiotherapist at The Priory Highbank Centre in 2003. She qualified from Addenbrooke’s Hospital School of Physiotherapy, Cambridge in 1984.

Jane has worked in various settings throughout the UK, with her interest in neuro-rehabilitation beginning at Sheffield’s Royal Hallamshire Hospital. She was asked to cover a neurological unit and has been hooked on ‘the challenge’ ever since.

I nside The Priory Highbank Centre

Find out more about The Priory Highbank Centre by watching our short video. Hear from the team and family members of service users, to learn more about what difference the care at Highbank can make.

I ntroducing The Priory Mount Eveswell

The Priory Mount Eveswell in Newport, South Wales, provides leading person-centred neuro-rehabilitation programmes that are bespoke to the severity and complexity of a person’s particular neuro-disability. This includes Traumatic Brain Injury (TBI), Acquired Brain Injury (ABI) or neuro-degenerative conditions such as Motor Neurone Disease, or Multiple Sclerosis.

Our aim is to improve our service users mobility and independence.

How to make a referral

Referrals are accepted from all NHS services including ITU, Trauma Units, adult and children wards, local authorities, private medical insurers and solicitors. The onsite team will be happy to discuss funding options and arrangements. Admission is following a comprehensive assessment by the interdisciplinary team and subject to agreement by the relevant funding authority.

To make a referral or for enquiries and further information:
