

# Lombard House

## Secure mental health services

Lombard House is a seven-bedded community locked rehabilitation hospital for men with a history of offending behaviour who have a learning disability and other conditions including autistic spectrum disorders (ASDs), personality disorders and mental illnesses.

Lombard House flat is situated within the grounds of Lombard House, offering spacious open plan living areas and provides patients with a further step to independent living.

We aim to help all of our patients to develop the skills and independence needed to lead a life back in a community setting.

### Patient profile

All patients are detained under the Mental Health Act. The unit accepts men with a primary diagnosis of learning disability who may also have secondary diagnoses of conditions including:

- **Asperger syndrome**
- **Other ASDs**
- **Personality disorders**
- **Major mental illnesses**
- **Substance misuse**

### Service overview

Our treatment programme spans:

- **Assessment and motivational work**
- **Offence-specific management**
- **Personality disorder symptom reduction**
- **Consolidation**
- **Relapse prevention**
- **Preparation for discharge and follow-up care**

Patients are admitted from medium and low secure services or external placements, and are supported to work through their individual intensive treatment programme to move to the nearby residential community service or through their own local provision.

We provide a holistic and individual approach to ensure that patients achieve their full potential of safe living in the least restrictive environment. Lombard House is part of a full discharge pathway which includes medium and low secure services, community locked rehabilitation and residential services.

## Our environment

Lombard House benefits from access to a full range of local community services as well as a range of on-site facilities including:

- A rehabilitation kitchen
- A communal living room
- Games room with pool table and darts board
- A dining room
- A conservatory
- Horticultural activities
- Gardens with a pond

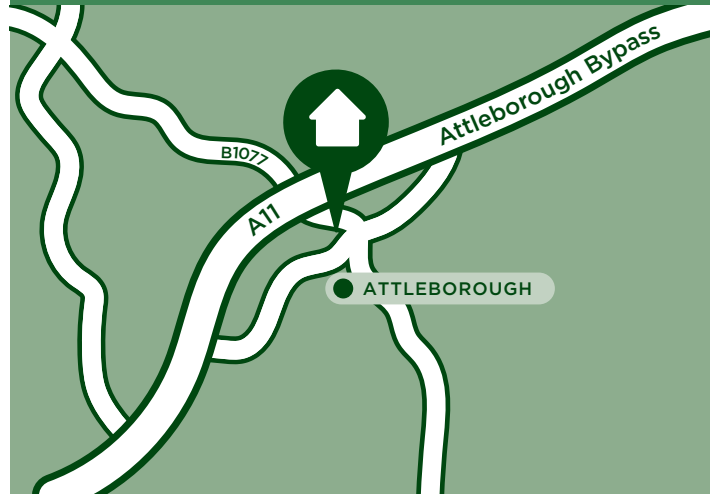

## Treatment programme

Our rehabilitation programme teaches patients independence and transferable skills. Patients are encouraged to develop their skills in a community setting and individual programmes will vary dependent on patients' needs as they progress through their individual rehabilitation programme. Patients are supported to participate in the on-site or community-based Real Work Opportunities Programme including employment and voluntary placements.

## Our location

Lombard House, Anchor Corner, Little Ellingham, Attleborough, Norfolk, NR17 1JY
