

Priory Hospital Market Weighton

Priory Hospital Market Weighton is a registered independent hospital, supporting males with severe and enduring mental health conditions who may or may not have complex presentations, with behaviours that challenge.

Situated in the attractive town of Market Weighton and within a short drive of York and Hull, the service is ideally located for safe, structured and gradual reintegration into the local community.

Service overview

This purpose built hospital can accommodate up to 15 individuals in two distinct areas, providing a tiered care pathway to support them in their recovery and rehabilitation. All bedrooms have en suite facilities.

- + A main ward for 11 individuals with communal lounges, activity rooms, laundry area and dining room
- + Eastfield View, a self-contained annexe providing a step-down service for 4 individuals who have developed independent living skills

Multidisciplinary team

The unit is led by an effective multidisciplinary team that work together to develop personalised, recovery focused treatment programmes and care pathways, as well as a range of therapies to meet all needs. The hospital delivers rehabilitation by stabilising mental health, reducing behaviours that challenge and enhancing daily living skills.

Staff actively maintain working relationships with case managers and community teams to enable a smooth and successful transition to life outside the hospital environment.

Close links exist with local support groups and education and employment opportunities are available to help facilitate reintegration into the community.

Care pathway

The care pathway provided helps to maintain progress and prevent relapse or re-admission. When required, the team can also provide a safe and supportive long-term placement, ensuring the best quality of life, in the least restrictive environment.

The team includes:

- + Consultant psychiatrist
- + Clinical psychologist
- + Qualified mental health and learning disability nurses
- + Occupational therapist
- + Activity co-ordinators
- + Mental Health Act administrator and administration team

Westfield View

Just outside the hospital grounds stands Priory Westfield View which is an independently registered residential unit offering a clear pathway option for patients stepping down from the hospital environment, whilst offering MDT support from the hospital team, if needed.

Priory Adult Care

Winter 2020 sees the opening of Priory Adult Care's 6-bedded supported living service, located within the town of Market Weighton. The new service will see Priory Adult Care working in partnership with Priory Hospital Market Weighton, to provide a rehabilitation and recovery care pathway for people with severe and enduring complex mental health needs, learning disabilities and those who could be on the autistic spectrum. The new purpose built apartments are specifically designed to offer a unique care pathway for individuals who require further support, to maximise their independence in the community.

Inclusion criteria

Individuals we rehabilitate often have a range of healthcare needs and co-morbid presentations, and may be adults who are:

- + Stepping up from community placements
- + Moving across from acute mental health wards
- + Moving across from acute general, ITU, other
- + Stepping down from a secure provision
- + Moving from other mental health services with no improvement in outcomes

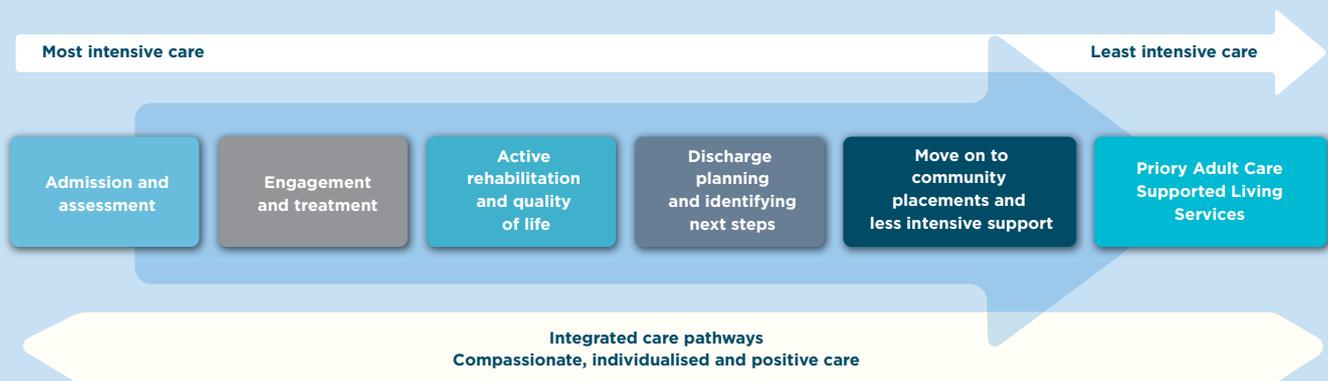

Proactive discharge planning Priory's approach

In order to achieve full engagement of individuals in their care plan, our mental health services use a variety of tools including the Recovery Star and My Shared Pathway.

- + We incorporate positive behaviour support alongside therapeutic interventions – enabling individuals to be active determinants of their care
- + Our recovery model ensures that our holistic care and support is focused on enabling individuals to have as independent, healthy and enjoyable a life as possible
- + Our recovery model is underpinned by a proactive focus on the whole of an individuals care programme
- + Discharge planning is central to Priory's model, with plans for step-down included in initial consultation with commissioners and stakeholders during the admission process
