

Obsessive compulsive disorder (OCD)

Priory offers a range of outpatient therapies to provide the best possible treatment for mental health conditions.

The information below provides you with the clinical specification for our OCD treatment, along with outcome measures, ongoing care options and details of the therapy itself.

We strive to deliver innovative treatment plans which can be paid for on a session-by-session basis. The prices at our wellbeing centres are as follows:

- 1:1 therapy starts from £109 per session (£132 in London)
- Consultant psychiatrist assessments start from £300
- Consultant psychiatrist follow-ups start from £150
- Group therapy starts from £65 per session (£77 in London)

Priory also offers an outpatient package for OCD, which provides a fixed price, includes a discount and provides you with certainty of cost for your initial treatment programme.

A simple GP referral process with 24/7 support

We have a simple process for GPs who would like to refer a patient, and our GP enquiry team can support you with any queries that you may have.

To make an online referral, visit [priorygroup.com/gp-referral](https://www.priorygroup.com/gp-referral)

The treatment that is offered across our wellbeing centre network varies. To discuss which Priory facility offers this specialism, please contact us today:

Priory offers an extensive number of evidence-based therapy treatments for a range of conditions.

Because every individual is unique we have a bespoke approach to helping people through their most difficult times, offering mental health assessments, individual, group and family therapies. Not all of these interventions will be appropriate or necessary for all people and collaborative tailored treatment options will be explored with referrals at the first assessment.

First, we assess and understand the particular needs of a person and then recommend an appropriate course of treatment that is underpinned by clinical specifications based on the latest research and guidance.
