Priory provides comprehensive rehabilitation services for people with complex mental health needs. We align our services with the recommendations of the Joint Commissioning Panel for Mental Health, ensuring our patients are given the highest quality care to enable an appropriate transition back into community services, wherever possible.

Service overview

Priory specialises in behavioural support for people needing services within a broader, but focused pathway of care. Our nationwide network of specialist rehabilitation facilities provide support within the following specialisms:

- Autism and learning disabilities
- Active rehabilitation for severe and enduring mental health
- Neuropsychiatry, older age and dementia
- Personality disorders
- Transitional living services for young people and young adults

Our outcomes

We work hard to involve individuals in their care and aim to provide supportive services which make a positive difference to their behaviours and future lives. We are delighted that the vast majority of our rehabilitation and recovery patients speak positively about their experience with Priory:

- 94% of patients felt listened to and understood by staff
- 91% of patients were satisfied with the overall quality of care

(Quality accounts 2018-19)

For more information or to make a referral, please call 0808 291 2162, email prioryenquiries@nhs.net or visit www.priorygroup.com/nhs

Our comprehensive multidisciplinary teams provide evidence-based treatment programmes across a range of conditions. Our treatment plans are tailored to the needs of each individual and aim to take into account mental, physical, educational and spiritual needs.

We are regularly reviewed by the Care Quality Commission (CQC), ensuring that we meet national standards for quality of care.
