

Adult Acute, High Dependency and Psychiatric Intensive Care Units

Priory's specialist inpatient acute, high dependency unit (HDU) and psychiatric intensive care unit (PICU) teams are committed to providing the highest quality of care. We help support patients with a wide range of mental health conditions in therapeutic and supportive environments.

Our aim is to assist any patient within our services to understand and treat their condition, using National Institute for Health and Care Excellence (NICE) approved interventions, that help to recognise and prevent triggers for relapse.

Service overview

- Immediate focus on discharge planning for positive end goals
- Seamless transitions into higher dependency, community living, complex care services or back home, reflecting individual needs
- Highest quality of care for a wide range of mental health conditions
- Emergency placements 24 hours a day, 7 days a week
- Flexible treatment plans to meet individual needs

Our outcomes

We work hard to involve patients in their care and aim to provide supportive services which make a positive difference to their behaviours and future lives. We are delighted that the vast majority of individuals in our care, speak positively about their experience with Priory:

- **94%** of our patients were satisfied with the overall quality of care
- **95%** of patients felt that staff were caring and supportive and communicated well with them
- **94%** of patients felt listened to and understood by staff

(Quality accounts 2018)

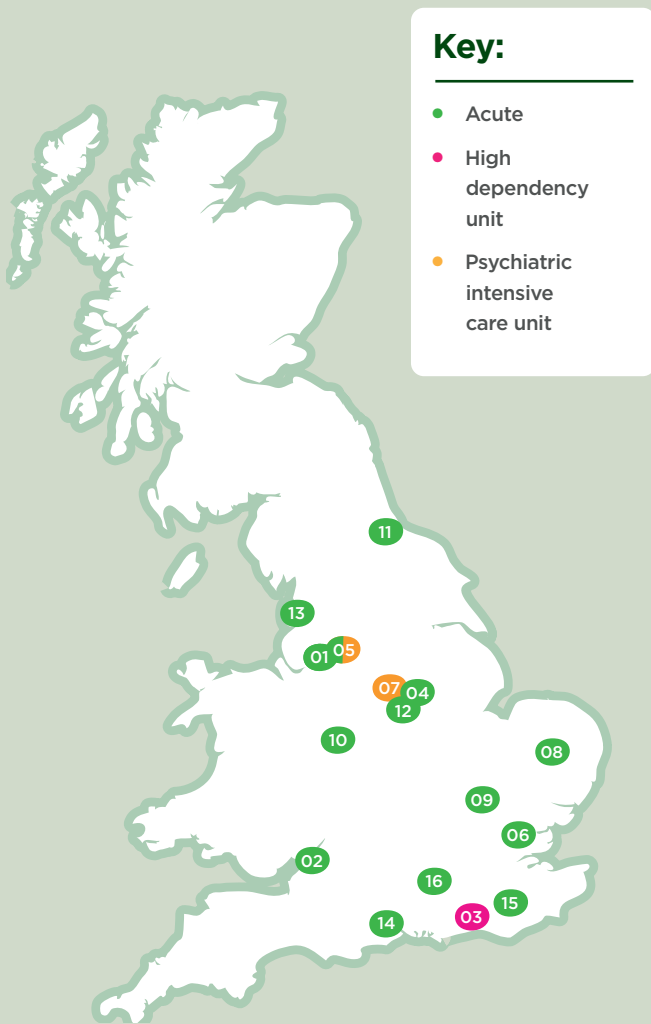

Our comprehensive multidisciplinary teams provide evidence-based treatment programmes across a range of conditions. Our treatment plans are tailored to the needs of each individual and aim to take into account mental, physical, educational and spiritual needs.

We are regularly reviewed by the Care Quality Commission (CQC), ensuring that we meet national standards for quality of care.
