Priory’s Rehabilitation and Recovery and Brain Injury Services
Location guide

A REAL AND LASTING DIFFERENCE FOR EVERYONE WE SUPPORT
Priory provides comprehensive rehabilitation services for people with complex mental health needs. We align our services with the recommendations of the Joint Commissioning Panel for Mental Health, ensuring our patients are given the highest quality care to enable an appropriate transition back into community services, wherever possible.

Priory specialises in behavioural support for people needing services within a broader, but focused pathway of care. Our nationwide network of specialist rehabilitation facilities provide support within the following specialisms:

- Autism and learning disabilities
- Brain injury
- Mental health rehabilitation
- Neuropsychiatry, older age and dementia
- Personality disorders

### Service overview

- Priory is a trusted partner of the NHS in delivering clinically effective, evidence-based treatment programmes
- Our key aims are to reduce or end problem behaviours, manage risk and work towards discharge from the point of assessment
- We work closely with commissioners to create flexible and bespoke packages of care to best support individual needs
- Priory employs expert multidisciplinary teams to support our services
- Priory’s therapeutic programmes incorporate a diverse range of therapies including psycho-education, cognitive and dialectical behavioural therapies (CBT and DBT), art therapy and daily living skills programmes
- Priory works closely with other providers to ensure effective transitions into community services. Where required, Priory can also support with short periods of care in higher dependency services, to prevent longer-term placement breakdown
