Find out more

Priory offers personalised and accessibly-priced treatment packages for individuals who are looking to self-pay for treatment. While we would prefer to receive a GP referral when a patient enters our services, this isn't always essential. We are also an approved provider for all of the UK's leading private medical insurers. If you have private medical insurance, a GP referral may be required by your insurer before treatment can commence. Please liaise directly with your insurer to confirm.
